Home Energy Advice Talks

11.00am

Community Energy

Dai Griffiths, Surrey Community Energy

Surrey Community Energy will present the model that allows for community ownership of solar assets across Surrey.

11.40am

Retrofitting Older Houses

Paul Street, Circular Dorking, Ken Caudwell, Betchworth Heat Pump Experience

A more sustainable house would be nice but what if you live in a typical 1930's semi-detached property? Discover all the steps big and small you might be able to take to reduce energy use.

Practical experience of installing and running a heat pump: how to select an installer, how to reduce running costs and how to assess impact on carbon emissions.

12.20pm

Can you cool your home with a heat pump?

Leah Robson, Your Energy Your Way

Following the recent heat waves, there is much talk about how to keep our homes cool. This talk aims to bust the myths and cut through the jargon about cooling with heat pumps

1.40pm

Powering Communities: Renewable Energy Solutions for a Sustainable and Affordable Future

Alan MacLeod, Founder & CEO, Pure Energy

Pure energy (REGen) Ltd will explore how community-led renewable energy initiatives can help create a more sustainable, affordable and energy-resilient future across the UK.

Drawing on our work with community energy groups and local organisations, we will highlight innovative solutions such as solar planters, solar PV canopies, battery energy storage systems, heat pumps and smart energy technologies that enable communities to generate, store and manage their own clean electricity.

The talk will focus on how integrating renewable technologies can reduce reliance on the national grid, lower energy costs, reduce carbon emissions and empower communities to take greater control of their energy future. We will also discuss the importance of collaboration, local engagement and practical, scalable solutions in accelerating the UK's transition to net zero.

2.20pm

Cut Costs, Save Energy!

Jenna Sam, Surrey Energy Centre

With energy costs continuing to put pressure on households, there's never been a better time to explore smarter ways to power your home. Join us as we take a look at the UK's current energy landscape and discover how renewable energy solutions can help you cut your bills, take control of your energy usage and invest in a more sustainable future.

3.00pm

Making Solar Work for You

Wayne Hanson, UK Solar Power Panels

Local solar panel installers providing smart, sustainable energy solutions for homes and businesses across Surrey and the surrounding areas.
