DORKING'S BIG SWAP, SWITCH, SHARE part of THE GREAT BIG GREEN WEEK

Dorking's Great Big Green Week celebrations are a collaboration between Circular Dorking and its members, Hello Dorking, Dorking Library, Dorking Quakers, Pixham residents, community groups, charities and businesses in and around Dorking.

Circular Dorking's aim is to strengthen our community by creating a local circular economy at its heart. Our activities centre around minimising waste, improving efficiency and keeping money circulating locally. Encouraging all parts of the community to be more sustainable will help Dorking and the surrounding area become stronger and more resilient, which benefits us all.

The seemingly little day-to-day changes we make close to home also have far-reaching benefits, not just for the beautiful area we live and work in, but also the planet we live on!

We organise and take part in community events throughout the town, as well as signposting national campaigns and initiatives. We have strong links with like-minded organisations in and around Dorking and further afield too, where knowledge and information sharing is key.

We hate waste, so why waste time re-inventing the wheel? We even recycle old jokes!

Explore circulardorking.org.uk to find out more, plus:

- discover achievable and cost-effective sustainable ideas for everyone
- find out what eco-friendly activities our local shops and businesses are doing
- get information on all our wonderful community initiatives
- use our quick helpful links to eco activities for schools
